

CMRT5.11 Declaration DW1000 IC

Decawave is committed to conducting its business in an environmentally, socially, and ethically responsible manner, complying with all applicable laws and regulations of those countries where we do business. Part of this commitment includes due diligence to attempt to determine if use of any of the “conflict minerals” (tantalum, tin, gold and tungsten) in our products directly or indirectly finance or benefit armed groups.

As a fabless company, we have reviewed our existing supply base, in particular suppliers of materials that contain “conflict minerals” and we can confirm that at this time there is no indication that any products we manufacture contain minerals that directly or indirectly finance or benefit armed groups in the Covered Countries. The signature below verifies this statement is valid and accurate to the best of our knowledge.

If you have any questions on this statement, or need more specific information, such as the DW1000 Conflict Minerals Reporting Template, please contact your Decawave representative. Please refer to www.decawave.com for more information or updates regarding the regulatory status of our products.
