

REACH Compliance Statement

DWM1004C

Decawave is committed to conducting its business in an environmentally, socially, and ethically responsible manner, complying with all applicable laws and regulations of those countries where we do business. Part of this commitment includes the safe use and identification of chemicals per the applicable requirements of the EU Regulation (EC) No. 1907/2006, which is known as REACH (Registration, Evaluation, Authorization and Restriction of Chemicals).

- Under REACH, Decawave is considered to be a downstream user. As such, we have a key role to play in advancing the safe use of chemicals and communicating relevant information both to our suppliers and our customers.
- As a fabless company, we confirm REACH compliance via our supply chain partners. We continually work with our suppliers to ensure that all requirements are met and that they remain in full compliance with current and future REACH requirements.

This statement confirms that our product listed below does not contain substances classified as Substances of Very High Concern according to the EU REACH Directive (EC no 1907/2006).

Part reference	Product type	SVHC candidate list status
DWM1004C	Module	201

- We have verified with our suppliers that there is no intended release of substances under normal or reasonably foreseeable conditions of use.
- The table gives the number of SVHC for which compliance has been verified. i.e. that to the best of our knowledge and belief, our products do not contain more than 0.1% by weight of any of the SVHC identified in the candidate list. We will continue to monitor this list as it is revised.
- The latest candidate list of SVHCs for authorization can be found at <https://echa.europa.eu/candidate-list-table>.

If you have any questions on this statement, please contact your Decawave representative. Please refer to www.decawave.com for more information or updates regarding the regulatory status of our products.
